Short Description

Definition of an Incident Safety Officer

An Incident Safety Officer is an individual who has met the requirements of Fire Officer Level I specified in NFPA 1021, Standard for Fire Officer Professional Qualifications and Chapter 5 of NFPA 1521, Standard for Fire Department Safety Officer and has the knowledge, skill, and abilities to manage incident scene safety by having and maintaining a knowledge of:

- Fire suppression operations,
- Technical rescue operations,
- Hazardous materials operations,
- Building construction,
- Fire science and behavior relative to predicting hostile fire events,
- The Incident Command System,
- The fire department's personnel accountability system,
- Incident scene rehabilitation strategies,

- The accident investigation and review process,
- Post-Incident analysis procedures.

Additional Incident Safety Officer duties include:

- Risk evaluation
- Resource evaluation
- Hazard identification and communication
- Action plan review
- Safety briefings
- Collapse zoning
- Safety committee participation
